## PACKAGING

Present cards effectively in a folding card and envelope.

## With the right PACKAGING your printed cards are complete.

CLARITY & SUCCESS offers you high-quality packaging for your professional customers (page 3), where you can submit your personal customer card, vouchers or Jewellery certificates to your customers. So think about the complete customer experience with some simple additional elements.

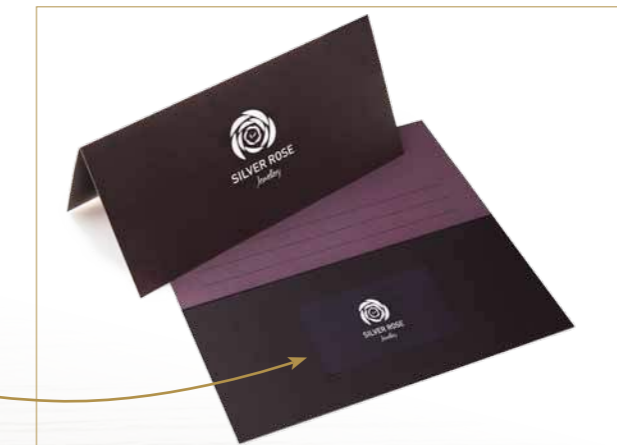

The cards can be easily fixed with transparent silicone glue dots in the packaging. Subsequent removal is not a problem as the glue can be easily removed. For example, when you buy a gift card, your customers receive the right gift packaging and the card is not lost. Also lines for a personal dedication can be immortalized on the

inside with a golden lacquer pencil. For the special icing on the cake, the transparent envelope ensures the contents and the lovingly designed folding card gleams through wonderfully. Here we gladly take over the design and printing of the outer packaging.

It is, of course, possible to obtain the packages in a different format or the envelopes in other colours. The price may vary accordingly. You can order the outer packaging, glue sticks, envelopes and pen in our package. So you have everything at hand to leave a lasting impression on your customers.

**Folding wallet for the printed card**  
Wallet in the format Din Lang with place for dedications  
And a field which is intended for sticking your professional cards (for example for vouchers). A dispenser for glue sticks is included in the package.

**Folded card with attached coupon**  
For the individual design of your materials  
you can send us your logo and your design wishes.

**Transparent cover**  
Lovingly packaged down to the last detail.  
With our unprinted, transparent envelopes with self-adhesive closure you give your folding cards a very special finish.

### Note on format and color:

We are happy to design and print the folding cards in the format Din Lang (closed end format 99 mm x 210 mm) with your logo and the colours of your shop. Quantity: 1,000 cards. Special colours and finishes are possible, but can incur an extra charge. Please send us your logo in vector format. The

transparent cover, which is suitable for Din Lang, is not printed by us. You can also send us a completed print file in PDF format. Please send us the print file in the open final format of 198 mm x 210 mm + 3 mm margin addition (closed final format 99 mm x 210 mm).

### Prices

Per 1,000 card wallets including design, glue dispenser, transparent envelopes

£790

Special colours and Finishes are possible  
But will incur an extra charge.
